

Reduce the Risk of Slips, Trips and Falls

Reduce the risk of slips, trips and falls by cleaning all spills immediately or marking the area with warning signage to identify the hazard.

- Keeping walkways free of clutter.
- Ensuring file drawers are properly closed.
- Securing/covering cables/wires lying across open areas.
- Paying attention to where you are going and don't rush.
- Making sure your view is unobstructed.
- Wearing footwear that is appropriate for the walking surface.
- Always using the handrail when walking up or down stairs.

Without good housekeeping practices, other preventive measures may be ineffective!

Remember: "No task is so important that it be done at the risk of Safety."
